THE FUTURE OF FAIR PLAY

DEFI-BASED. TRANSPARENT. PROVABLY FAIR.

A NEW ERA FOR THE 6/40 LOTTERY

THE OLD WORLD

- High House Edge (50%)
- Slow Payouts
- Opaque Results
- Centralized Trust

THE TRUST PROBLEM

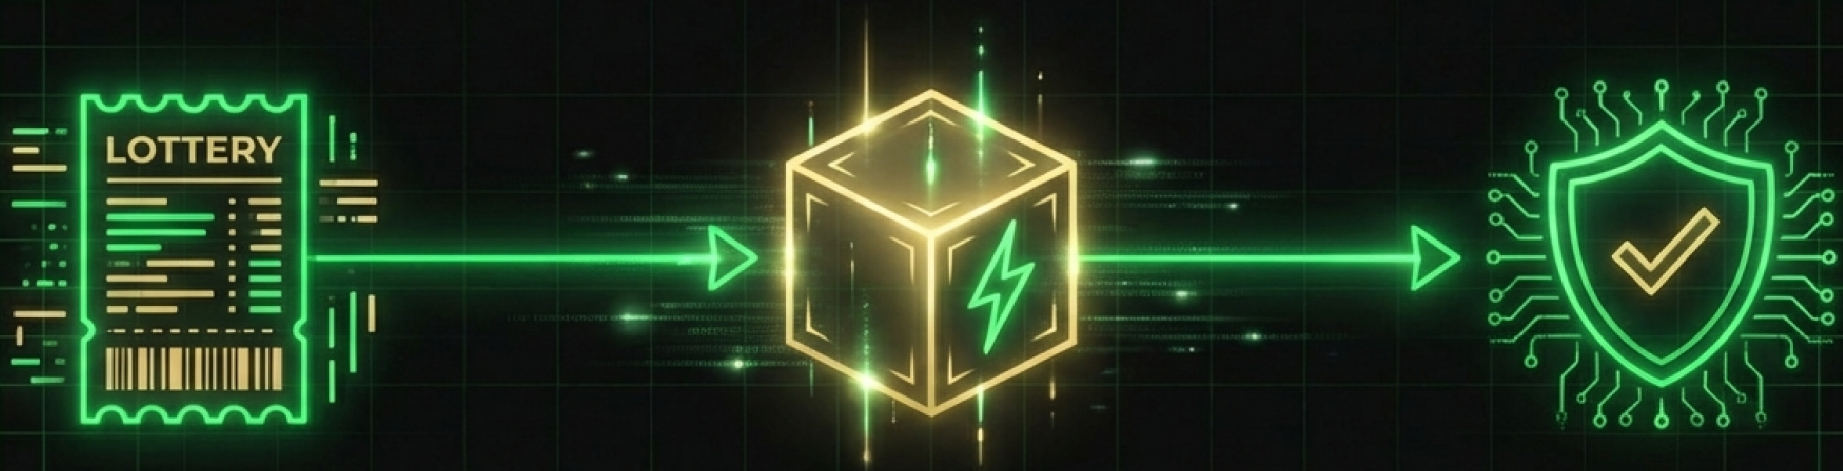

Traditional lotteries are defined by friction and inefficiency. Players wait for draws managed by central authorities, creating a 'black box' that breeds suspicion. Your audience demands transparency.

WE DON'T HOLD THE MONEY.
THE CODE DOES.

ChainBETs is a fully decentralized platform. Bets, payouts, and house winnings are executed automatically via smart contracts. No central wallet. No human intervention.

THE TECHNOLOGY OF TRUST: ON-CHAIN RNG
